Content description

Content from the Western Australian Curriculum

Communicating

Interact with teacher and peers through action-related talk and structured play to exchange greetings

Introduce and share information about themselves

Participate in shared actions with teacher and peers, using simple, repetitive key words, images, movement and songs

Respond to teacher talk and instruction

Understanding

Recognise and reproduce the sounds of the vowels and consonants of spoken and written Hindi by singing, reciting and repeating words and phrases in context

Generate language for a range of purposes in simple spoken and written texts by noticing and using context-related vocabulary and recognising some first elements of the Hindi grammatical system, including:

- identifying people using singular subject pronouns; for example, तुम; आप; मैं; वह
- recognising gender usage in nouns; for example, मुर्गा, मुर्गी; बकरा, बकरी
- recognising and using the nouns for common objects around them; for example, मेज़; कुर्सी; पुस्तक
- showing understanding by responding to directions; for example, बैठ जाओ; पानी पियो
- using numbers while referring to objects; for example, एक बिल्ली; दो फूल
- developing number knowledge for one to 10.

Task preparation

Prior learning

Students have prior knowledge of and exposure to:

- songs, counting activities, action-related talk and a range of texts that relate to greeting people and asking how they are feeling
- context-related vocabulary, including words related to birthdays and age
- elements of grammar, including responding to questions to elicit their name and age; classroom instructions; expressing feelings through gesture or speaking; recognising simple words
- the textual conventions of an interview.

Assessment differentiation

Teachers should differentiate their teaching and assessment to meet the specific learning needs of their students, based on their level of readiness to learn and their need to be challenged.

Where appropriate, teachers may either scaffold or extend the scope of the assessment tasks.

Assessment task

Assessment conditions

Part A is to be completed by students working individually.

The interview in Part B will take place between the teacher and the student.

Resources

- Task sheet
- Picture cards
- Transcript of spoken script
- Recording device

Instructions for teacher

Prior to administering the task, students will need to be:

- taught context-related vocabulary
- taught some first elements of grammar, including
 - gender, such as लड़का ;लड़की
 - noticing appropriate pronouns to identify people, such as मैं, तुम, वह
 - repeating simple questions and statements, such as यह क्या है? यह हाथी है।
 - using numbers one to 10
- exposed to the conventions of an interview and provided with opportunities to practise them with teacher and peers; for example, तुम्हारा घर कहाँ है? मेरा घर स्कूल के पास है।
- familiar with the fact that in Hindi, as in English and other languages, there are different ways of greeting and interacting with people; for example, नमस्ते? अंकल आप कैसे हैं? नमस्ते उमंग आप कैसे हो?

Activities to scaffold the task

Provide opportunities for students to engage in language practice and writing activities to help them internalise the language and skills they need for this task, such as:

- playing Inside Outside Circle to Indian music. Students in the two circles move in opposite directions. When the music stops, the students in the inside circle ask the age of the student they are facing: तुम कितने साल के हो? The students on the outside tell their age: मैं सात साल का हूँ।
- playing a version of 'What's the time, Mr Wolf?' where students call out, "तुम कितने साल के हो मिस्टर वुल्फ?" (How old are you Mr Wolf?). In response, the student playing Mr Wolf says the number in Hindi. The students take that many steps towards the wolf. This is repeated until one student gets close enough to tap Mr Wolf on the back. Now Mr Wolf chases all the students until they touch someone. That student then becomes the wolf, and the game continues.
