Time allocation on which the outline is based

Two hours of teaching per week for 12 weeks

Civics and Citizenship key concepts embedded

- democracy
- democratic values
- justice
- participation
- rights and responsibilities

Prior knowledge

In Year 3 Civics and Citizenship, students learned about how and why community groups create rules and make decisions, as well as considering their own contribution to the community and society. This was connected to both democracy and participation.

Humanities and Social Science Skills

Students develop their understanding and application of skills, including questioning and researching, analysing, evaluating, communicating and reflecting. They apply these skills to their daily learning experiences and to investigate events, developments, issues and phenomena, both historical and contemporary.

Across the year, different skills are emphasised in Civics and Citizenship, Geography and History:

- Questioning and Researching (Q&R)
- Analysing (A)
- Evaluating (E)
- Communicating and Reflecting (C&R).

Suggested assessments are provided throughout the outline for teachers to select the timing, type and number of assessments in line with the school assessment policy.
