Any resources such as texts, websites and so on that may be referred to in this document are provided as examples of resources that teachers can use to support their teaching and learning programs. Their inclusion does not imply that they are mandatory or that they are the only resources relevant to the learning area syllabus.

This resource may utilise electronic web-based resources, such as YouTube videos. Schools are advised to install advertising blocking software prior to using online material. Additionally, teachers should be present while an electronic resource is in use and close links immediately after a resource such as a video has played to prevent default ‘auto play’ of additional videos. Where resources are referred to for home study, they should be uploaded through Connect, or an equivalent system, that filters advertising content.

This sample teaching and learning outline provides one possible approach through which the French: Second Language syllabus within the Western Australian Curriculum: Languages can be taught. Consistent with the rationale of the Languages curriculum, this outline supports students' ability to communicate proficiently in a language other than English, with essential communication skills in that language, an intercultural capability, and an understanding of the role of language and culture in human communication.

Time allocation on which the outline is based

Two hours of teaching per week, over one year

Prior knowledge

The sample teaching and learning outline is based on the understanding that in Year 9, learning is characterised by consolidation and progression. The subject builds on the skills and knowledge developed in Year 8, and the understanding required of students to communicate in French, focusing on extending their oral and written communication skills and their understandings of French language and culture. Students increasingly work independently to analyse, reflect on, and monitor their language learning and intercultural experiences; however, they still require guidance through modelling, scaffolding, and monitoring. More information related to this curriculum can be found in the French: Second Language Pre-primary to Year 10 syllabuses <https://k10outline.scsa.wa.edu.au/home/teaching/curriculum-browser/languages/french-p-10>

This sample teaching and learning outline provides a range of suggested learning activities and assessment tasks, aligned to the curriculum, through which students can apply their acquisition of knowledge, understanding and skills to the focus. The focus provides a broad context through which the content is taught. The outline suggests:

- teaching vocabulary and grammatical elements that show the breadth and depth of language and align with the curriculum
- text types relevant to the learning activities and assessments
- language learning and communication strategies relevant to the focus
- learning activities and assessments from which teachers may choose, according to their class's interests and abilities
- resources suitable to the focus.

It is not expected that teachers administer all learning activities and assessments. It is at the teacher's discretion which of the suggestions are suitable for formative and/or summative assessments. It is also at the teacher's discretion to use other activities and assessments.
