ABLEWA Humanities and Social Sciences Scope and Sequence

The general capabilities are the dispositions that will enable students to live and work in the 21st century. Teachers' roles in teaching and learning these capabilities are not

Literacy

Across the Western world, literacy is the knowledge, skill and capacity to use language in learning and communication in a modern society. Literacy involves understanding and creating oral, print and digital texts for different purposes and audiences.

Numeracy

Across the Western world, numeracy is the knowledge and skills to develop the knowledge and understanding of numbers and mathematical concepts and processes, and to recognise and understand the role of mathematics in everyday life.

Information capability

Across the Western world, information capability is the ability to learn to use ICT effectively to find, evaluate, create and communicate information and ideas.

◀ Return to Humanities and Social Sciences

at school, and in the learning to make the ways of doing things and others in a digital

Critical and creative

Across the Western creative thinking as and ideas, seek positive creative thinking and deeply using skills resourcefulness, improve their lives beyond school

Personal and social

Across the Western capability as they learn relationships, lives, capability involves regulating emotions; establishing positive in teams; and handling

Ethical understanding

Across the Western as they identify and principles, and understand

understanding involves an ethical outlook that develops an awareness of others.

Intercultural

Across the Western world, understanding as the understanding of others. The identities are shaped by capability involves ways that recognise and cultivate mutual
