capability to adjust

Adjustments to the curriculum to ensure some students achieve on the same level as others. Adjustments to assessment to acknowledge achievement and demonstrate learning.

English as an additional language

Students for whom English is a second language. Western Australian curriculum includes English as an additional language learning, which is designed to support students who are learning English. While most students have strong numeracy skills in their first language, there are a number of students who are learning English, and have limited English skills.

While the aims of the curriculum are the same for all students, EAL/D students may require additional support to learn the new language and to achieve the same level of learning as other students. This may require additional time and resources. The curriculum addresses their language needs and provides additional support in formal settings.

Gifted and talented

Teachers can use the curriculum to provide individual learning opportunities for gifted and talented students.

Teachers can enrich the curriculum to provide additional challenges for gifted and talented students. Work with learning support staff to provide additional challenges for gifted and talented students.
